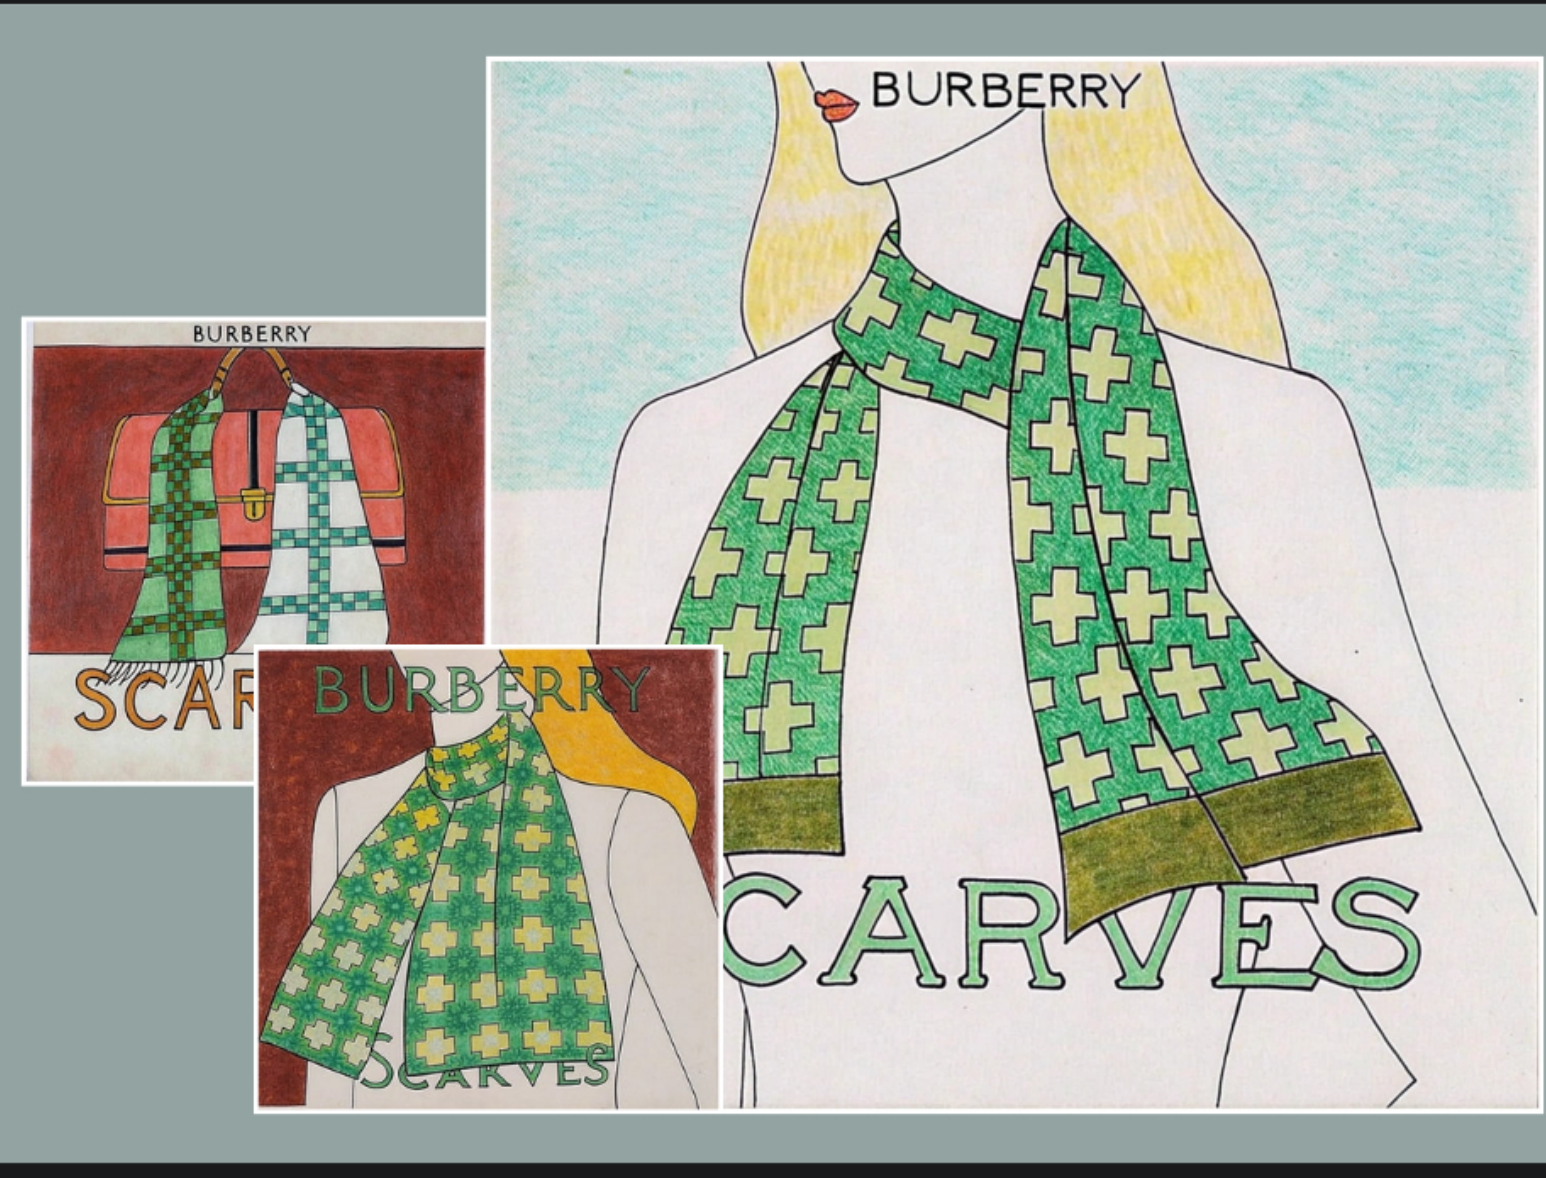
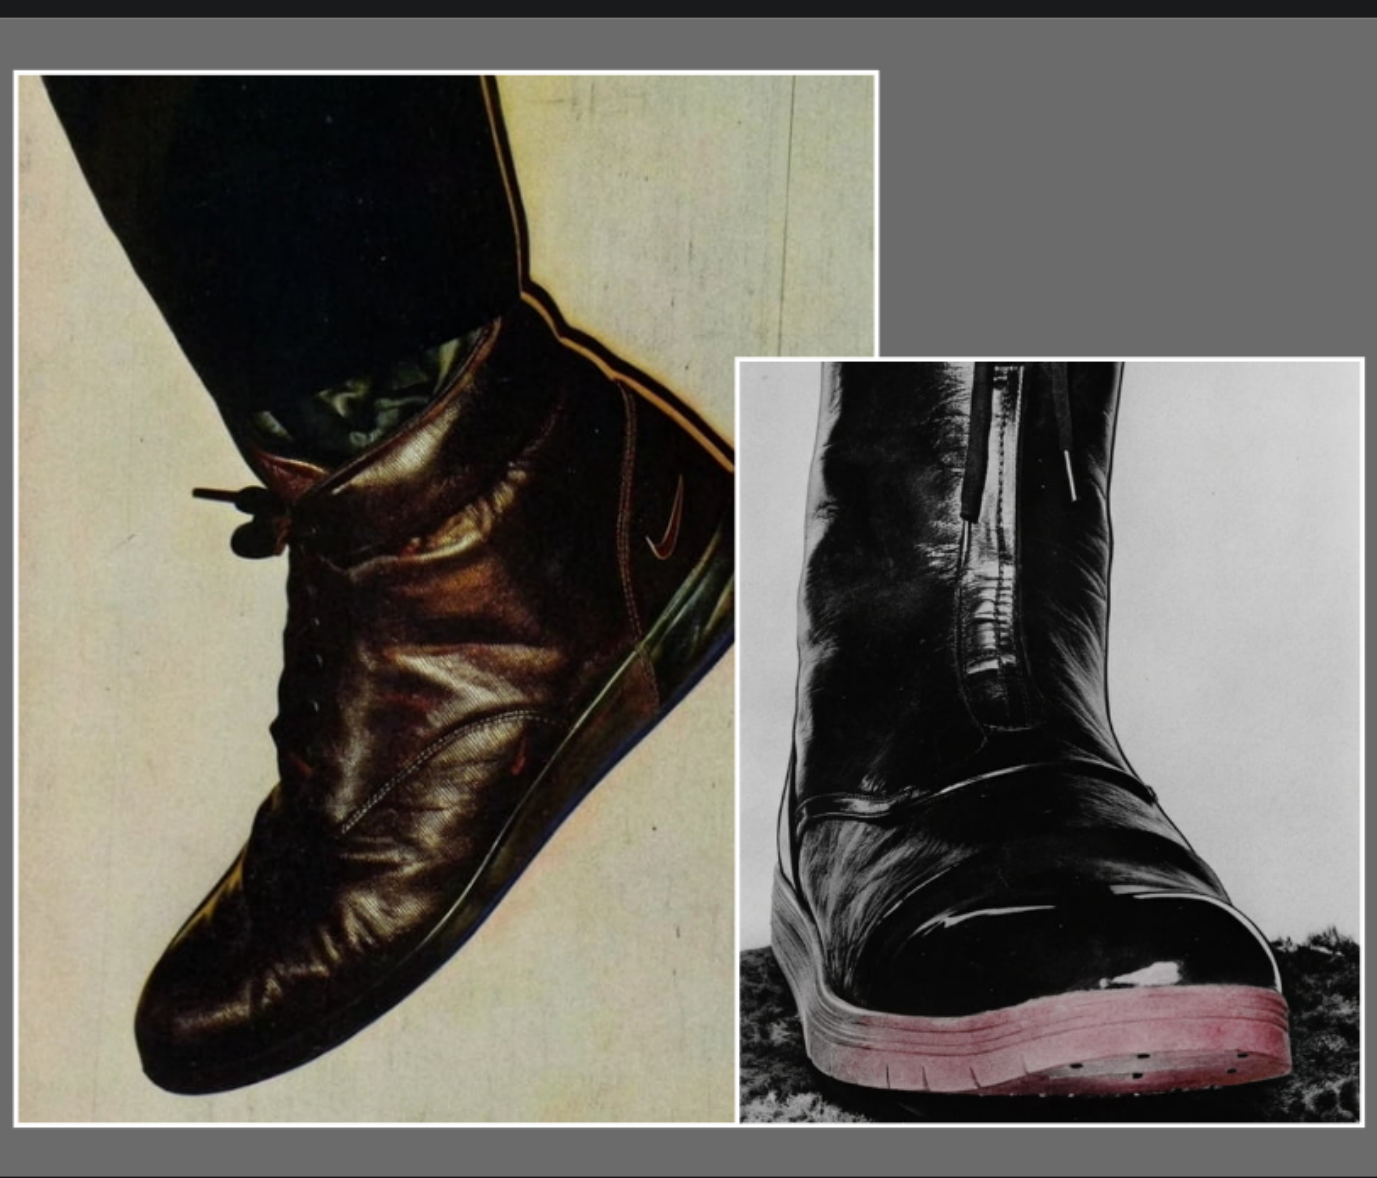
fashion ai generations and stuff





MEMORIES LAST FOREVER

LIFE LIT UP

One doesn't stop seeing. One doesn't stop framing. It doesn't turn off and turn on. It's on all the time. Photography has nothing to do with camera's, but is an art of observation. It's about finding something interesting in an ordinary place. I've found it has little to do with the things you see and everything to do with the way you see them.
